For: CLEANING SUBSTRATE FOR CLEANING AND REGENERATING A MOLD

**RESPONSE TO RESTRICTION REQUIREMENT**

Honorable Commissioner of  
Patents and Trademarks  
Washington, DC 20231

Sir:

By Official Action mailed March 19, 2003, restriction to one of the following inventions is required under 35 USC 121:

- I. Claims 1-6, drawn to a cleaning substrate.
- II. Claims 7-10, drawn to a method for cleaning a mold.

In response, Applicants hereby elect claims 1-6 for examination in this case.

The restriction is traversed for the reason that both claim sets are directed towards structure and/or processes involving cleaning, not molding per se, and should therefore be examined in a single application.

Early examination on the merits is courteously solicited.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including
